

TechParts Demo Community Walkthrough

An experience site has been created for the fictional company, TechParts. Follow these steps to self-register and view the product catalog after accepting the site's terms and conditions.

1. Go to the TechParts Experience Site by clicking on this link:
<https://techparts-challenge-jcs-dev-ed.develop.my.site.com/>
2. You will be able to view the site as a guest user. However, your access to products is restricted. You will need to login via the Login button in the top right of the page.

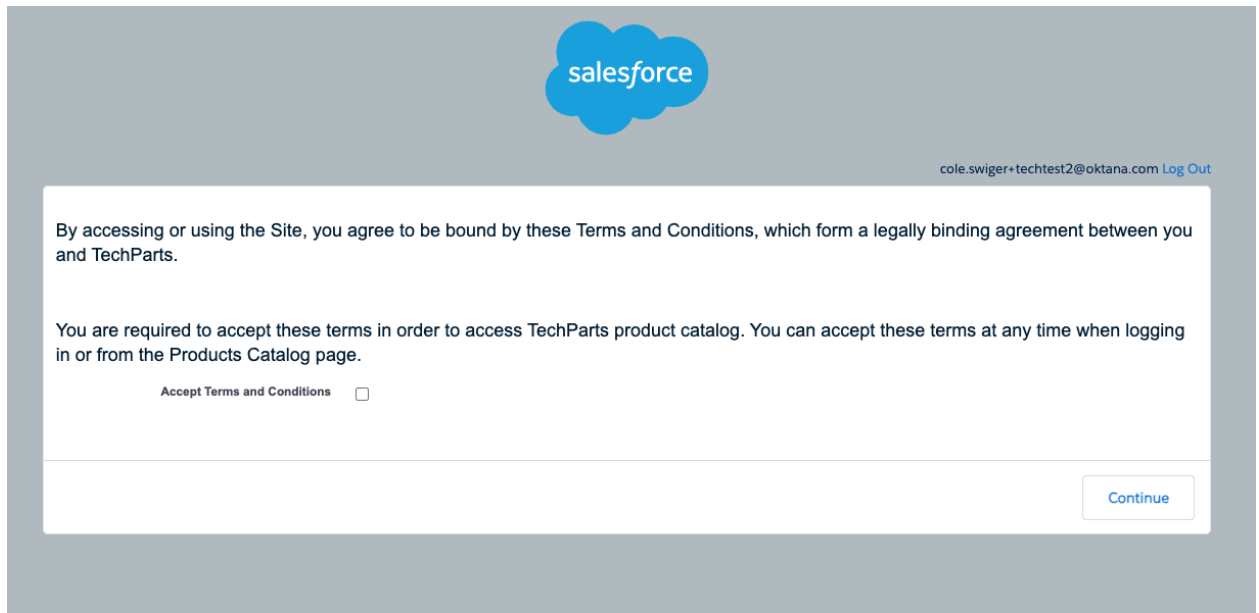

3. If this is your first time visiting the site, you will need to register to create your account. Click the “Not a member?” link at the bottom of the form.

The image shows a login form on a light gray background. The form is a white rounded rectangle with a thin gray border. It contains the following elements from top to bottom: a label 'Username' in bold black text above a white rectangular input field; a label 'Password' in bold black text above another white rectangular input field; a solid orange rectangular button with the text 'Log In' in white; a horizontal line; and two links at the bottom, 'Forgot your password?' and 'Not a member?', both in orange text.

4. Fill out and submit the form. You will receive a confirmation email from TechParts stating that your account has been created.
5. Upon logging in for the first time, you will be prompted to read and accept the terms and conditions of the site. You can access the site without accepting the

terms by clicking “Continue” but you will be unable to view products.

The image shows a Salesforce login interface. At the top center is the Salesforce logo. In the top right corner, the text "cole.swiger+techtest2@oktana.com" is displayed next to a "Log Out" link. A large white box in the center contains the following text: "By accessing or using the Site, you agree to be bound by these Terms and Conditions, which form a legally binding agreement between you and TechParts." Below this, it says: "You are required to accept these terms in order to access TechParts product catalog. You can accept these terms at any time when logging in or from the Products Catalog page." At the bottom of this box, there is a label "Accept Terms and Conditions" followed by an unchecked checkbox. A "Continue" button is located at the bottom right of the white box.

- a. Until the terms are accepted, you will be prompted to accept them every time you login.
 - b. You can also accept the terms directly from the Products page if you have not already accepted them.
6. Once you have logged in and accepted the terms, the site will be fully available to you. Go to the Products page from the navigation menu to view all of TechParts Products.
